5. **THE WATER VILLAGE** – The houses here, which are built right at the water’s edge, are made of wood and sit on high stilts, joined together with a maze of wooden walkways. Visitors are free to roam around the vicinity of the water villages and observe the humble lifestyle of a predominantly fishing community.
6. **PEACE PARK & JAPANESE SURRENDER POINT** – The Peace Park was built as a memorial and also as a renunciation of the horrors of war. It is dominated by the memorial mound which is surrounded by landscaped gardens and pavilions. Small ponds with stone bridges and park seats are all Japanese-inspired.
7. **THE CHIMNEY**– The 106 feet high structure is Labuan’s most well-known landmark. It was built in the 1800’s. The actual purpose of the Chimney is still a mystery but many believe it served as a ventilation shaft. Recent archaeological study found no traces of smoke to suggest its use as a chimney.
8. **DUTY FREE SHOP / FINANCIAL PARK SHOPPING COMPLEX** – with so many duty free shops, Labuan is indeed as a shopping paradise. Products for sale includes perfumes, chocolate, liquor and etc.
