

TRINITY CATHEDRAL
ST. PETERSBURG, RUSSIA

IMPORTANT NOTE

Sunlight, especially in the countries of northern Europe, varies depending on the time of year and allows us to live different experiences: in summer the days are very long, with only a few hours darkness per day, while in winter there are very few hours of sunshine, with darkness predominating everyday life

We recommend travelling with a credit card to Scandinavian countries where its increasingly common for businesses not to accept cash payment
